Subject: Please Review and Comment

I have been asked by the EPA IC to get review and comment on the Hurricane Evacuation Plan developed by Safety. Please review this document and send comments to me. Please share with your deputies and agency partners as well for review. It is EPA centric for a lot of it, but please give feedback. I would like comments by 1200 on 9/6/17 that is tomorrow. Thank you and please let me know if you have any comments or questions.
